

FOR IMMEDIATE RELEASE

The Winston Knolls School Adds Board-Certified Behavior Analyst

HOFFMAN ESTATES, IL (March 7, 2019) The Winston Knolls School has announced the addition of board-certified behavior analyst Rich Wawrzonkowski effective March 11th.

Mr. Wawrzonkowski started in Applied Behavior Analysis after graduating from University of Illinois Urbana-Champaign with a Bachelor of Science in psychology. After working with various organizations in both residential and outpatient settings, Mr. Wawrzonkowski was provided an opportunity to work in-home with children as a registered behavior technician. The immediate gratification of working in this context prompted him to apply to the Southern Illinois University graduate program in behavior analysis and therapy where he earned his Master of Science.

Mr. Wawrzonkowski has worked with learners of all needs teaching essential communication skills, promoting cooperation, and increasing tolerance to novel situations. He practices Acceptance and Commitment Therapy (ACT) in language-able learners and parents to reduce rigid behavior patterns and promote flexible behavior.

About the Winston Knolls Education Group

Winston Knolls Education Group is a State of Illinois 501(c)(3) nonprofit organization providing specialized education programming, professional related services, family therapy, professional development and transition offerings for individuals who are not finding success due to a variety of intensive special needs that require personalized academic, behavioral and social interventions. In partnership with more than 30 school districts throughout the Chicagoland Area, working with special education and alternative education students, providing them with individualized attention, innovative blended learning approaches, and all necessary support services to overcome barriers to education.
